VOL. IV

LOWELL TEXTILE SCHOOL. OCTOBER 14, 1921

No. 1

## Lowell Textile Opens

## Textile Opens Season with 20-0 Victory

### The Freshman Parade

On September 26th Textile opened with a bang. The registration was large, the total number being about 300. Of these about 150 were members of the entering class. No classes were held, but the "freshies" were warmly welcomed by President Eames, members of the faculty, and upper classmen, especially by the "sophs."

President Eames addressed the newcomers in Southwick Hall. He said that this year should be better than any previous one for the school. He also spoke of the changes made to better accommodate the increased number of students. In Kitson Hall, several changes have been made. One section has been partitioned off and is used for mechanical drawing. In another section of Kitson Hall, the knitting department has been installed. Other departments have received new equipment. The woolen department has received a complete set of Davis & Furber woolen cards, and also a new 200 spindle Davis & Furber mule. The cotton department has received two Banner knitting machines, and a Links & Links knitting machine.

After President Eames' address, Prof. L. H. Cushing, faculty athletic manager, spoke. He asked every freshman to enter some branch of athletics, and urged them to. H. H. Hubbard, manager of the football team appealed to the students to support the team by coming out for practice and for the games. Then the sophomores took charge and the fun began.

Less than a hundred freshmen, all those who were available, were "conveyed" to the quadrangle. They were supplied with caps, black with a red button, for which they generously paid. Then they were politely asked to remove their foot gear. Those who were unable to do so were amply assisted. Then began the "Peerade" that made all Lowell sit up and take notice. Trouser legs were rolled up to the knees; coats were worn inside out. All commands were enforced when necessary by large, wooden paddles, with which the "freshies" were gently tapped. Across the Moody Street bridge, and down Merrimack Street the procession moved, headed by two wheelbarrows filled with shoes. At Merrimack Square a halt was called. Then a favored few were allowed to make speeches, using Page's clock as their stand after several "would be speakers" had had their say, there was a wild scramble for their shoes, and the "sophs" graciously allowed them to go back to school. The freshmen united in agreeing that it was a cordial welcome.

On October 1st Textile opened its 1921 football season with a 20 to 0 victory over the New Bedford Textile eleven. Despite the fact that both teams have been practicing only a short time, the game was full of enthusiasm from start to finish. The weather was ideal, and several hundred spectators as well as the entire student body were present at the opening of what promises to be a most successful season. Lombard, Goosetrey, and Smith were stars for the local eleven, while Ing and Bessy gained honors for the visitors.

Lowell kicked off to New Bedford, ball received by Scharf who was quickly downed on his own 30 yd line.

Unable to gain after 3 downs, a poor kick gave Lowell the ball on the visitors' 35 yd. line and Walker put over before the first three minutes of play were over. Gruhn again chose to receive; this time the first down came on their 35 yd. line. Two end runs and a center buck netted one-half yd. Punt by Bessy put the ball on Lowell's 30 yd. line. Two center rushes by Olsen gave 18 yds. A pass, two end runs and a center buck by Walker put the ball over for the second touchdown. The kick was not successful.

The kick off to Lowell was received by Hart. Exchange of kicks and two incomplete passes attempted by Lowell ended the first half.

At opening of second half New Bedford received the ball but unable to gain were forced to punt. End run by Macher

(Continued on Page 3)

## Textile Loses to University of Maine 34 to 0

## Chinese Students Celebration Hosts

### Tenth Anniversary of Founding of Republic of China is Observed

Textile met its match in the strong Maine team at Orono. Our team put up a good fight but was clearly outclassed, being outweighed at least ten pounds to the man. Marble, Lombard, Goosetrey, and Olsen starred for Textile.

#### The First Period

Lowell kicked off to Maine and Small took the ball from the 20 yd. line, and carried it back to the 45 yd. line. Cohen went through center for 2 yds. and Gruhn through center for first down. Small made 2 yds. and Gruhn through center for three yds. Small made first down 1 yd. from goal line and Gruhn went through for the first touchdown. Small kicks the goal. Maine 7, Lowell 0.

Lowell kicked to the Maine 5 yd. line. Gruhn carried the ball back to 30 yd. line. Small bunched the center for 3 yds. Blair goes in for Small and takes the ball without gain. Gruhn made a bad fumble but the ball was recovered by a Maine player. In the fourth down Small punted to Lowell who brought the ball back to middle of the field. Walker takes the ball for second down, but lost 10 yds. Lowell kicked to Maine's 20 yd. line. Small received the kick and runs it back to the 40 yd. line. End of first period.

#### The Second Period

Gruhn fumbled and Goosetrey of Lowell recovered the ball. Walker goes through center for 3 yds. Walker takes ball again, but makes no gain. Gruhn caught Lowell's pass and makes 45 yds. Small made a yd. Cohn 4 yds., and then Small passed to Cohn for 8 yds. Small

Chinese students in the Lowell Textile school celebrated the 10th anniversary of the founding of the Chinese republic last evening by entertaining a number of guests, members of the faculty of the school and their wives and other American friends, at a banquet in the main hall of the Y. M. C. A.

The hall was prettily decorated with the Chinese and the American colors and the flags of the two republics, the fire-barred emblem of the new China and the Stars and Stripes, were draped behind the head table, where were seated the toastmaster,

## Alumni News

Robert R. Sleeper, '00, chemist with the National Aniline & Chemical Co., was married to Miss Gertrude Hardy of Groveland, Mass., on Wednesday, October 5th.

Charles L. Howarth, '17, formerly chemist at the Sayles Finishing Plants at Saylesville, R. I., has been appointed as head of the dye laboratory here at Textile.

Russell L. Brown, '21, has accepted the position of assistant superintendent of the Chelsea Fibre Co., New York City.

"Pal" Moore, '21, and Merrill Morris, '21, are chemists for the Pacific Print Works, Lawrence, Mass.

"Dutch" Clayton, '21, has a position in the Wolfeboro Mills, Wolfeboro, N. H.

Charles Ellis, '21, is with the Lowell Bleachery.

Russell Robinson, '21, is now assistant superintendent of the Claire Mills, Phillipsburg, New Jersey.

"Archie" Greenberg, '21, is with Hart, Schaffner & Marx.

Louis Royal, '21, has accepted a position as assistant superintendent of the United Silk Mills of Scranton, Pa.

Arne K. Gyzander, '09, has returned to the National Aniline & Chemical Co.

Milton J. Washburn, Jr., '21, is with the National Aniline & Chemical Co. at Boston.

"Fat" Goosetrey, '21, is now boss dyer for the Packard Manufacturing Co., Webster, Mass.

"Nat" Jones, '21, is with the Nashua Manufacturing Co., Nashua, N. H.

Eric Laurin, '21, is assistant instructor in dye laboratory here at school.

Subscription Price \$1.25 a year. Ten cents per copy.

## NOTICE

All material handed in to this paper must be written upon one side of the paper only.

## EDITORIALS

One of the hardest games on our 1921 football schedule is to be played next Saturday, October 15, with New Hampshire State College at Dover. Playing against a team composed to a large extent of veterans and upon strange grounds our team needs the support of the entire student body in order to do its best. A large and enthusiastic bunch of rooters, who are behind the team every minute will go a long way toward imparting to the men the requisite "pep" and confidence. By your presence at the game Saturday you can show the men on the squad that you are backing them to win, and they will respond by "bringing home the bacon."

Next to school spirit should come class spirit. Try for your class team, and if you make it, play your head off for your class; and if it happens that you fail to make the team, come out and cheer for the fellows who did. A spirit of friendly rivalry between classes makes for the best interests of the school as a whole.

"The Text" is now starting upon the fourth year of its existence. We want it to be your paper, representative of the entire student body. When you happen upon any article of current interest or any bit of news, send it in; give us your views upon any question of general interest. The box for contributions is in front of the Textile Co-operative store and is always on the job. And lastly, show the "Text" board that you are supporting your school paper by handing in your subscription to some member of the board.

## 1921 Football Schedule

Nov. 19.—Middlebury,	Middlebury

## Cleanliness in the Dyeing Laboratory

Important Advice for the Student of Textile Coloring, and Perhaps for Some Who Have Passed the Student Stage

By DOROTHY M. BURBECK, B.T.C.

This is not any new idea on the advantage of cleanliness in the dyestuff laboratory, for surely all realize the absolute importance of it, but is instead a reminder for those who have become slack in their methods, and may have taken few if any measures to improve them, and yet are wondering why they do not obtain better results, or what is more important, the correct results.

Personally, I think we cannot overestimate the value of cleanliness in the dyestuff laboratory, whether it be in one of an actual manufacturing concern, or in some technical school. If in the latter case more stress should be laid upon this matter less improvement would have to be made and less constant watch kept when the man gets into the laboratory of the real business world.

In experimental or research work, care must be taken that only scrupulously clean apparatus is used; and of all apparatus, the balance should be most carefully watched, for that is the keystone of perfect work with dyes. To be sure, the purity and quantity of reagents used are vital, but any imperfections of or contaminations from the scales employed, be they ever so minute, will certainly produce disastrous or at the least, extremely misleading results. To many "close enough" seems to be the idea. There is where you make your greatest mistake. Chemistry is fundamentally an exact, a particularly exact, science, especially when dealing with any experimental dye investigation, so there cannot possibly be any such condition as "close enough"—your work is either right or wrong. Yes, I know you may get away with it now—may do so for a time—but what is the ultimate gain? Some find more satisfaction in "getting away with it" than getting it right. To me it seems far easier to start right and know what

you are doing than it would to carry out the work in a careless, slipshod manner, with one eye on the instructor or the department head for fear he may observe your methods and correct them or warn you against your carelessness. If you leave your technical school and start out in a business laboratory where you continue your careless methods, what sort of a reflection are you casting on your alma mater? Why, men, you are deliberately destroying the future business opportunity of other graduates as well as your own.

Why not start right? You cannot begin too early. From the first day you enter the laboratory let cleanliness and care be your chief ideas. It may take a little longer at first to observe these points but you most surely will save in the end. It is much easier, more rapid and satisfactory to do a piece of work carefully, even though slowly, once, and know your results are right, than to hurry through it, and be obliged to repeat it, not only once, but several times perhaps before you have obtained any clear interpretation of your results. True, this is an age of haste, rapid work, efficiency, and results, but efficiency is the keynote of success. Without efficiency, all your haste and rapid work can never give you results, and results are what count nowadays. And cleanliness in your work means efficiency in that work.

As I have already said, the balance is the most important piece of apparatus in laboratory work. It should be tested at least once a day to be kept true and in perfect balance, and when not in use the pans must be left absolutely clean, weights

put away, and the balance case closed.

Perhaps you consider these points a waste of time, too trifling to bother with; but I can tell you that you will waste more time trying to get results from poorly kept balances and weights that have been left lying around anywhere than you would ever use in keeping them in perfect condition and always on hand. Some of you will say that such details are to petty, too trifling, when there is so much to be accomplished, so many greater things to take up a man's whole attention.

Yes, I know they may seem small; but habits of care and cleanliness once thoroughly inculcated do not encroach on any of the seemingly bigger things—they are so much second nature, so automatic and involuntary, that they do not require any of that attention and concentration so essential to the accomplishment of the chief aim, the ultimate result.

**Textile vs. New Bedford***(Continued from Page 1)*

gave a 20 yd. gain. Substitutions by both teams in both line and backfield positions put a majority of new men on the field. The ball exchanged hands several times during the next few moments, but the recovery of a fumble gave it to the Textile eleven four yds. from the opponents' line, and it was easily put over in the first down by Smith. Kick by Goosetrey O. K.

Poor kick off to Lowell was received by Schwarz. The ball was quickly worked down the field by a forward pass and one end run. Two more downs brought the ball in position for a field goal at which Flagg made an unsuccessful attempt as the game ended.

Touchdowns: Walker 2, Smith 1. Goals from Touchdowns: Goosetrey 2. Referee, Mahoney; Umpire, Gleason; Linesmen, Sweet and Sweeney; Head Linesman, Cushing.

**Textile Loses to University of Maine, 34 to 0***(Continued from Page 1)*

made 1st down and Cohn goes through center for 7 yds. and for 4 yds. Gruhn then takes the ball through center for the second touchdown. Small kicks goal. Score: Maine 14, Lowell 0. Lowell subs, Wilmot for Bird.

Lowell kicked off to Maine. Gruhn caught his kick on 20 yd. line and ran it back to 40 yd. line, end of sec. quarter.

*The Third Period*

Cohen made 3 yds. Small punts to Lowell and Lowell punts back. Small received the ball on 20 yd. line and ran it back to 25 yd. line. Taylor made 2 yds. Maine was penalized 15 yds. for holding. Small kicks to Lowell's 10 yd. line. Lowell brought the ball back to 25 yd. line and kicked. Small made 1 yd. Small kicked from Maine's 10 yd. to Lowell's 20 yd. line. Maine subs, Mulvaney for Strout. Lowell made a 1 yd. and punted to Maine's 35 yd. line. Gruhn takes the ball back 10 yds. and then went through tackle for 12 yds. Cohn made 2 yds. Small 5 yds. Cohen 5 yds. Small 4 yds.

*The Fourth Period*

Maine's ball on Lowell's 19-yard line. Maine subbed Merrett for Gruhn. Small broke through right tackle for a touchdown and kicked a goal. Score 21 to 0.

Blair went in for Tayler. Lowell kicked off to Maine and Small ran the ball from Maine's 15-yard line to her 50 yd. line. Merrett made two yards and Small went through center for seven yards. Thomas went in for Small. Cohn plunged through center for 15 yds. Cohn made a gain of five yards. Blair made five yards, Cohn four yards and Thomas then went through center for first down. Cohn takes the ball for four yards. Blair for four yards and then Cohn plunged through the line for a touchdown. Blair missed the goal kick. Score: 27 to 0.

Maine substitutes Elliott for McKechnie. Lowell kicked off to Maine and Merrett ran the ball from the 20-yard line to 30-yard line.

Cohn plunged through center for five yards and again for three yards. Cohn hit the center again for 13 yards and Thomas carried the ball from Lowell's 35-yard line for a touchdown. Blair kicked the goal. Score: Maine 34, Lowell 0.

Maine put in F. Gordon for Dwelley and G. Gordon for Cohn. Maine kicked off to Lowell's 15-yard line and the ball is carried back to Lowell's 27-yard line. Maine put in Goldberg for Reardon and Dunn for Young. Lowell fumbled and Maine recovered the ball. Thomas made three yards and Maine is penalized for holding. Blair makes eight yards and then punted to Lowell's 20-yard line. Lowell punted back to Maine's 35-yard

The Textile Christian Association this year continued the work started last year in obtaining a list of rooming and boarding places for the Freshmen, and was able to help quite a few men in getting settled. The room was opened a week before classes were resumed, and help was given various men.

In order to help the new men out in obtaining second hand books, the association started a second-hand book store, and was able to be of assistance to a number of men.

Freshmen bulletins were sent out to the men during the summer, giving a brief summary of the life at L. T. S., and offering the services of the association at all times.

The Association is still young and was organized to be of service to the students, and we want the students to feel that it is their organization.

**Chinese Students Celebrate***(Continued from Page 1)*

Gilbert Koa, Mayor and Mrs. Perry D. Thompson, Principal and Mrs. Charles H. Eames of the Textile school and other honored guests.

The toastmaster after an introductory address called on T. S. Thom to explain the significance of the celebration, which he did in remarkably good English.

Mayor Thompson spoke in happy vein, as usual, putting to good use information he had obtained in conversation with the toastmaster, of which he availed himself in humorous fashion.

Principal Eames spoke of the work of the Textile school pointing out that, organized at first from what might be termed a rather selfish local motive, it was now aiding students from many other lands, notably from China, which is represented there this year by 15 students.

Theodore Lee made an excellent address, discussing with no little feeling the Chino-Japanese situation.

Agent W. A. Mitchell of the Massachusetts mills also spoke of his pleasant relations with the Chinese students here and of the great opportunities for industrial progress which are just beginning to be developed in China.

Later songs and music on the native flutes were given by George Wang, Calvin Chang, Clarence Wu and T. S. Thom.

A Chinese yell, locomotive style, rivalled any American college yell for pep, after which the celebration closed with the singing of the Chinese and the American national hymns.

**Fraternity Notes****INTERFRATERNITY COUNCIL**

Steps were taken recently toward the formation of an inter-fraternity council. Representatives of the four fraternities, Sigma Omega Psi, Omicron Pi, Phi Psi, and Delta Kappa Phi, met at the Phi Psi house and made preliminary arrangements for the council. Julius Kaatze of Sigma Omega Psi was elected temporary chairman and Robert W. Loney of Delta Kappa Phi temporary secretary.

A preliminary draft of the freshman pledging rules was drawn up. This agreement will be acted upon by the various fraternities and will then be posted. It will regulate the conditions under which freshmen may be pledged. After drawing up this agreement the meeting was adjourned until October 20, when final action will be taken.

The delegates from Phi Psi were George Marshall, Walter Wheaton, and Will G. Brown; from Omicron Pi, Andrew Orr, S. D. Steele, and H. Boumer. Those from Delta Kappa Phi were Everette V. Steele, James Shanahan and Robert W. Loney; from Sigma Omega Psi, David Annapsky, Julius Kaatze, and Joshua Miller.

**Class Elections**

1922.

Pres.: E. V. Steele.  
Vice-Pres.: B. Valentine.  
Sec.-Treas.: W. F. Wheaton.

Representative to Executive Council: H. Macher.

1924.

Pres.: M. R. Rollins.  
Vice-Pres. G. K. Lewis  
Sec.-Treas.: W. A. Rivers.  
Representative to Executive Council: H. M. Brigham.

**School Notes**

At a recent meeting of the Executive Council Arthur E. Clasby, '22, was elected president for the coming year.

The many friends of our popular past instructor, Mr. Lupien, will be glad to hear of his advancement. Mr. Lupien is now assistant head of the Service Department of Cheney Bros., South Manchester, Conn. The Service Department includes the educational, medical, employment, recreational, housing, and insurance departments.

Prof. Ball has induced Manager Jessop of the "Coop" to give an extra discount of 1% for every 100 dead flies turned in at the store. With possibilities of killing 200 in one swat the "Discount on Sales" account should be considerably increased.

•••  
MISCELLANEOUS SCIENTIFIC  
DATA

Freshman (reading instructions): "Heat the test tube and hold a match over the mouth."

Ten minutes later (to instructor): "Sir, I heated the test tube and held a match over it as directed and nothing happened."

Instructor: "That's strange!" Then after a moment's thought, "Was the match lighted?"

Freshman: "No."

Student assistant (to himself as he is working): "Well I'm a damn fool."

Voice from nearby: "Right!"

It is reported that "Oolong" Krantz has bought a powerful motor cycle.

Mr. Lowe (lecturing to the 3rd year wool class): "Glass, as you all know, is a porous material."

Sullivan (In a dubious tone): "Well if that's the case a man with a glass eye could weep."

Professor Orr (In chem quiz): "Now then, what is mineral wool?"

Promising Freshman: "The shearings from a hydraulic ram."

COPIED FROM THE PITTSFIELD CESSPOOL.

Mr. James Nary has recently become an exponent of the square back haircut, it is understood that he conceived the idea after witnessing the Pilgrim Tercentenary pageant at Plymouth.

1st Freshman: "I saw you go up and ask Herby Ball a question after the Mechanism Lecture."

2nd Freshman: "Yes, I've got a bad habit of walking in my sleep."

DISSENTION IN THE WOOL DEPARTMENT

Mr. Lowe (to 2nd year wool man): "I want you to understand that the sole purpose of Gilling is to prepare the sliver for the comb."

Mr. Barker (In a loud voice directly outside the lecture room): "That's not the point at all."

## Annual Freshman Smoker

On Wednesday evening, October 5th, the annual freshman football smoker was held in Kitson Hall. A large number of the freshman class and of the upper classmen were present and listened to some interesting remarks by members of the faculty.

Captain Ray Walker had charge of the meeting and, after an opening selection by the Phi Psi orchestra, called upon Mr. Eames for remarks. Mr. Eames spoke upon the spirit at present in the school and called upon the student body to sustain that spirit. He also wished the football team success upon their trip to Maine.

Mr. Savage then gave some very pleasing selections upon the piano which were enthusiastically received. Walker then called upon Mr. Barker. He spoke in his usual pleasing manner upon conditions in the school and called upon the football players to remember that they represented L. T. S. in all their contests. He urged fair play and told of the impression this would give in building a name for L. T. S. in athletics.

Mr. Cushing then urged the players to give their best against University of Maine and called upon the students to give their best support in all the coming games both at Lowell and away from home. He especially urged the men to make every effort to attend the New Hampshire game on October 15th. He then called upon Cannell to practice a few cheers. That the spirit was present was evident in the way the cheers were given.

After several minutes of cheering, ice-cream and cake were served to the students by a committee from the athletic association. Needless to say it was well received and when no more was in sight the meeting broke up. It was very evident from the spirit displayed throughout the meeting that the entire student body is backing the team in all their efforts and hoping for a most successful season this fall.
